SoftWings® have been one of Frey & Winkler's well-established inventions and are useful for frames which require a special nose bridge solution.

Be it frames with big and heavy lenses, safety glasses, sports glasses or sunglasses - there are many possible applications.

Soft silicone provides high wearing comfort without pressure marks on the nose and prevents the frame from slipping. The stainless-steel inlay allows the bridge to be adjusted to the wearer's nose.

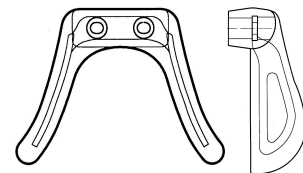

Last but not least, our wide range of SoftWings® options fit metal and acetate frames, come in different sizes and are available in various colours of inserts and silicone.

Body: Anti-allergenic, crystal-clear silicone*

Insert: Corrosion-resistant stainless steel**

Assembly: By screws and tubes

Picture shows article 6710

For metal frames

Article	Width of bridge [mm]	Width between wings [mm]	Height [mm]
6710	14.50	25.50	18.30
60041	14.90	29.50	23.00
6119	14.90	31.80	24.50
6117	16.90	33.80	24.50
6218	17.30	32.30	21.90
6162	19.00	32.30	21.90

For acetate frames

Article	Width of bridge [mm]	Width between wings [mm]	Height [mm]
6171	14.90	31.80	24.50
6172	16.90	33.80	24.50
6226	17.30	32.30	21.90
6163	19.00	32.30	21.90

*Black version is available for some articles

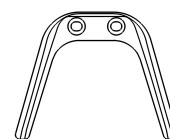

**Variation of insert material available (for example, non-plated, gold-plated, palladium, gold-flashed etc.)
