New ear comfort

Silicone temple tips for ultra-thin metal frames

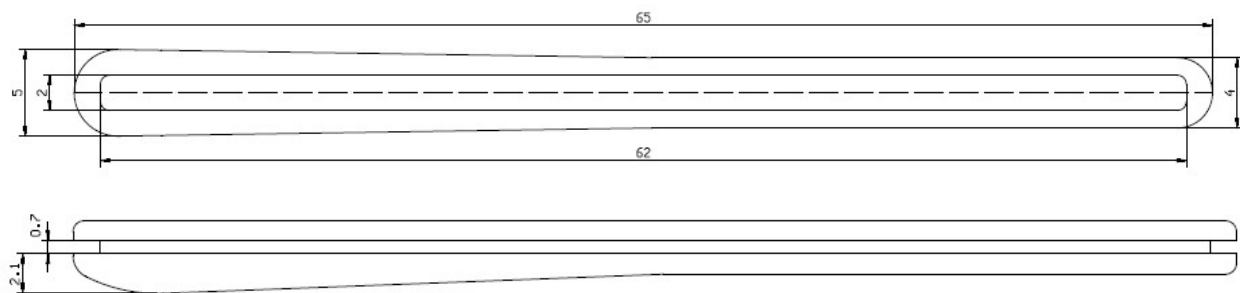

Do you produce ultra-thin metal frames by chemical etching? Then we have an elegant solution to enhance the ear comfort of such frames.

Discreet, transparent inserts made of silicone that are simply pushed into the fitting section of the temple.

F&W offers two versions of temple insert: a short, straight one and a longer one that gets broader at the end.

**100% made in Germany in our own facilities
and with tested materials only**

● ● ● | 61050 silicone temple insert, 65mm, transparent

● ● ● | 61051 silicone temple insert, 45mm, transparent
